

ESSC-Sport: Special information and [your chance to make your voice heard!](#)

[View this email in your browser](#)

Welcome to the Special Edition of the EOSE E-Bulletin devoted to the concept of
European Sector Skills Council.

[A wide consultation](#) is currently being led by a Consortium composed of the European Observatoire of Sport and Employment (EOSE), the European Association of Sport Employers (EASE), UNI-EUROPA and SkillsActive - which has been appointed by Directorate-General Employment and Social Affairs of the European Commission to carry out a feasibility study for setting up a European sector skills council for the sport and active leisure sector.

Online survey now available!

Through the special edition of the EOSE e-bulletin, the Consortium would like to give you the opportunity to take part in the study by filling [an online questionnaire](#) and make sure your views will be considered when developing the set of recommendations for the European Commission.

The survey shall provide key evidence to **assess** if there is sufficient **demand** and **need** to set up a Sector Skills Council, and to identify if there is the **capacity** to ensure the successful establishment of such a mechanism for the sector. *This is your opportunity to ensure that sport can benefit from such opportunities already established in other sectors!*

Take the Survey now!

What is a European Sector Skills Council?

The concept has been promoted by the European Commission with a view to:

- provide more and better information about the skills situation in different sectors;

What is required from a national Observatory?

- > Collect Labour Market Information (LMI) about the sector in your country;
- > Contributing to and distributing a sector wide European qualitative survey of skills issues in your country;
- > Consulting with a group of stakeholders on the findings of

ESSC-Sport: Download the project leaflet

Do you wonder what is the objective of the consortium of 4 organisations appointed by the DG Employment & Social Affairs to carry out a feasibility study?

Would you like to know more about the expected benefits and how it will seek the buy in

- help develop skills governance in each sector and national skills policies.
